RECEIVED

JAN 27 2003

Federal Communications Commission  
Office of Secretary

WTC

Dear Sir,

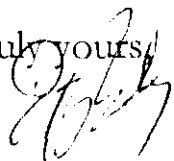

I understand that the FCC is considering charging a \$1.00 Universal Service Fee on my portable phone. My phone has limited use, I considered it a security device.

This fee, actually a tax, will cost me \$12.00/year. That is a considerable amount. As I understand it this money goes to other people so that they will pay less for phone service.

Please send me your records regarding this *Universal Fee*. I want to know how much is collected per month/ year, and where does the money go.

Thank you,

Very truly yours,

Edwin F. Baker

**Dear FCC:**

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to **Confirmed** JAN 9 2003 Distribution Center

I do not think it is fair to charge EVERYBODY \$1.00 regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

Feel free to add your comments below on how this change will personally affect you.

*This country was founded to protect the rights of over taxation and taxation with out representation what you are doing is not right. We are taxed too much now. why cant the government be run like a business, cut over head dont tax*

Dear Mr. Powell:

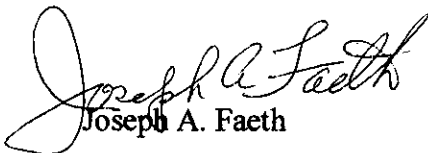

This letter is being sent to you to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact our ability to retain our wireless service.

We do not think it is fair to charge EVERYBODY \$1.00 regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

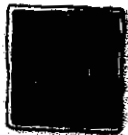

Both of us are in our late seventies and solely rely on our wireless phone for emergency and safety ONLY. Please help the senior population survive in these times of terror that runs rampant in every neighborhood of this country.

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

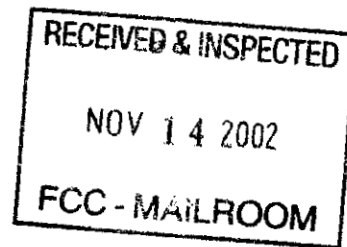

Sincerely,

  
Joseph A. Faeth
